

BioMat Testimonial Template

Hello fellow Health Seekers!

We are looking for testimonials for the BioMat, the Rejuvena Ionic Facial Care System and the Alkal-Life Antioxidant Water System. We need to put the testimonials on our website and also in some of our printed materials.

Testimonials are powerful healing energy in and of itself and will help both us as distributors and you as you focus your energy in describing your encounter with one or more of the products!

Writing up your testimonial and sending it to us means giving us total permission to use the testimonial on both the website and in printed materials. Do not worry about using the perfect words in writing about your experience, if there are any corrections needed in your description we will edit it and make your description sound “coherent” and flow nicely! Even best selling authors use editors to make their work read better!

Just follow the simple format below to make sure that you include all the elements needed to make up a wonderful testimonial.

1. Describe in good detail your HEALTH CONDITION that brought you to use the BioMat or other product. In other words, if you have Chronic Fatigue Syndrome declare that you have that problem but also describe HOW you feel with your condition. “Can’t lift my head off the pillow”, “joints ache constantly”, “too tired to do common chores”, etc. You get the idea, but the more detail that you put in here, the better.
2. If you have MORE than one health condition, break each down into separate descriptions and put them in separate section of your testimonial.
3. Tell HOW you found out about the BioMat (or other product) including WHO introduced it to you.
4. Describe HOW you USE the BioMat (or other product) – e.g. – “I started using the Mini BioMat when I received it on Saturday, 11-1-08. I put it on my recliner and started it on the lowest setting. I loved the feeling of the gentle heat on my body and soon after settling in I fell into a deep, restful sleep, which was the best I’ve had in many months. I then continued to use it on a daily basis, morning and evening sessions of ½ hour. I moved the setting up to a medium range after a week and find it even more relaxing and rejuvenating at the same time.”
5. Now describe the RESULTS from use of the product. Be as specific as you can be and related as much as you can to the Health Condition listed in #1. List both the SHORT TERM and LONG TERM results - if you’ve had the product for a good amount of time, e.g. “after using the BioMat for 2 weeks I found that I’ve slept much better and for longer periods of time.

After 2 months of using the BioMat, the aches in my joints are lessened to a minor pain, I have more freedom of movement and I have much more energy to do the everyday things that I used to find difficult to do.” But you can go beyond that simple description to details about how you feel when you use the product!

6. Now, you can also mention any OTHER RESULTS THAT WERE UNEXPECTED, such as weight loss, better looking skin, more manageable hair, regular bowel movements, etc. You get the idea!
7. Now, some people here will be tempted to insert a mention that their spouse, son, daughter, dog, cat, bird, etc. ALSO used the BioMat and extraordinary things happened! STOP! Go BACK to Step 1 and start all over again! This can be ANOTHER testimonial! Even if it's your dog or cat, please give a good, full description of how the animal appeared to be BEFORE using the product and what difference it made after using it. Many animals are drawn to sit on the BioMat and take the natural energy from it.
8. We would ALSO LOVE to have a Testimonial in AUDIO format or VIDEO format if you so desire to do it that way. Be creative! Have fun with it and share the energy of these wonderful products with the world!

When you are finished with your written testimonial, please email it to **creativeccma@gmail.com** or fax it to 614-633-2940. For an Audio or Video format, please email us at the above email and we will send you the instructions on how to upload it to us.

Thank you so much for giving us your time for this and sharing with the world!
