

Did you know?

When it comes to dehydration, by the time you feel thirsty, it may already be too late!

According to a University of Connecticut study, even mild dehydration can have a significant, negative effect on a person's mood, energy, and thought clarity.

Stay hydrated with

Alkal-Life Water

Benefits of Drinking Alkal-Life Water

Ionization

Ionization transforms your basic tap water into a powerful antioxidant. The Alkal-Life 7000sL™ offers 6 levels of ionized water.

Superior Hydration

Hydrogen-rich Alkal-Life Water effectively hydrates your body. It is the perfect drink to refresh and replenish yourself after a thermotherapy session on the Biomat® or a rigorous workout!

Environmentally Friendly

Plastic water bottles are slow to degrade and heavily contribute to pollution. Alkal-Life 7000sL™ utilizes your tap. Store Alkal-Life water in a reusable water bottle and take a stand against plastic pollution.

Advanced Filter Technology

Equipped with an advanced 4-stage Active Carbon Filter which effectively removes contaminants such as microbes and chlorine. Alkal-Life Water has a smooth and neutral taste, just as nature intended.
