

Hi-Pora Waterproof Pad

UniversalBiomat.com

Richway's newly developed **Hi-Pora Waterproof Pad** for the **Professional and Mini BioMat is now available!**

The new Hi-Pora Waterproof Pad is manufactured with

- high-quality ultra-light materials
- 80% Dew-spo Polyester coated with natural soy bean fibers
- 20% Neo-Vent Hi-Pora, which is four times better than Gore-Tex

This new construction allows for:

- absorption and protection from moisture, and
- moisture permeability, water resistance, water repellency, and breathability.

The combination of Dew-spo Polyester and Neo-Vent Hi-Pora assists in preventing moisture from entering while transferring moisture outward.

This advanced allergy-free material prevents skin irritation and feels like silk upon touch!
Hand / machine washable for your convenience.

Prices remain the same!
